9/11 CAMPAIGN 2005

The 9/11 Campaign 2005 commemorative poster was designed by ArtAID in collaboration with September's Mission to give special recognition to those who contribute to this very important fundraiser for educational and cultural programming for the future World Trade Center Memorial. Individuals who have donated to the 9/11 Campaign 2005 are named within the shapes of the Twin Towers, where they have been given the opportunity to contribute personalized notes in memory of their loved ones. In the background are listed the names of all those who perished on September 11th, 2001, including the airline flights, the World Trade Center and the Pentagon, identified symbolically and listed chronologically in order of the events.
